Professional Summary

Motivated Software Developer currently pursuing a Master of Information Technology at Charles Darwin University while working as a Vacation Employee with the Northern Territory Government. Completed practical learning and hands-on projects in React, TypeScript, JavaScript, Node.js, REST APIs, Python, Microsoft Azure, Git, GitHub, and Postman. Passionate about solving real-world business problems through software engineering, automation, and cloud technologies. Strong analytical, problem-solving, and communication skills with a commitment to continuous learning and delivering high-quality software solutions.

Technical Skills

Programming Languages

- JavaScript
- TypeScript
- Python
- HTML5
- CSS3

Front-End Development

- React
- Vite
- Responsive Web Design

Back-End Development

- Node.js
- REST APIs
- JSON

Cloud Technologies

- Microsoft Azure Fundamentals
- Cloud Computing Concepts

Version Control

- Git
- GitHub

Development Tools

- Visual Studio Code
- npm
- Postman

Project & Collaboration Tools

- Jira
- Confluence
- Trello
- Microsoft Planner
- Microsoft Teams
- OneNote

Productivity Tools

- Microsoft Office Suite, Excel, Outlook, SharePoint, OneDrive & Power BI

Professional Development / Training

Microsoft Learn

- Introduction to Cloud Infrastructure: Describe Cloud Concepts (Azure Fundamentals)

JavaScript

- freeCodeCamp JavaScript Curriculum (In Progress)

TypeScript

- TypeScript Handbook, Variables, Functions, Interfaces & Arrays

React

- React Official Documentation
- Built React + TypeScript Hello World Application using Vit

Node.js

- Node.js Official Learning Resources
- Hello World Console Application
- Basic Node.js Programming Exercises

REST APIs

- REST API Fundamentals
- JSONPlaceholder API Exploration
- Postman API Testing

Python

- Python Fundamentals, Variables, Arithmetic, User Input & Console Applications

Azure

- Microsoft Learn Azure Fundamentals
 - Cloud Concepts
 - Azure Architecture Overview
-

Projects

React Hello World Application

What was built

Developed a simple React + TypeScript web application using Vite.

Tools Used

React, TypeScript, Vite, CSS

Key Learning Outcomes

- Created React functional components.
- Learned React project structure.
- Applied basic component styling.
- Ran a local development server.

TypeScript Fundamentals

What was built

Completed beginner TypeScript programming exercises.

Tools Used

TypeScript Playground

Key Learning Outcomes

- Variables
- Functions
- Interfaces
- Arrays
- Static Typing

Node.js Fundamentals

What was built

Developed simple Node.js console applications.

Tools Used

Node.js

VS Code

Key Learning Outcomes

- Executed JavaScript outside the browser.
- Used variables and console output.
- Understood the Node.js runtime environment.

REST API Exploration

What was built

Tested REST API endpoints using Postman and JSONPlaceholder.

Tools Used

Postman

JSONPlaceholder

REST APIs

Key Learning Outcomes

- HTTP GET requests
- JSON responses
- API communication

Python Fundamentals

What was built

Completed beginner Python exercises.

Tools Used

Python

VS Code

Key Learning Outcomes

- Variables
- Arithmetic
- User Input
- Console Applications

Education

Charles Darwin University - Darwin, NT – Expected 2026 | Masters in Information Technology

Cavite State University - Indang City, Cavite - 2019 | Bachelor of Science in Information Technology

Certifications

Google I/O 2018 Extended – Philippines
